Water Drinking Systems

Inline Water Filtration Systems

USA Made Filter System

Inline Water Filtration Systems

Connects to any new or existing mixer tap.

FS5010 Inline Water Filtration System for Standard Water Use

FR5910 Inline Water Filtration Replacement Cartridge for Standard Water Use

For most homes our standard water filtration system will be suitable. However, some homes suffer 'hard' or 'harsh' water, more common in regional areas. For these areas we have a specific harsh water filtration system.

FS5050 Inline Water Filtration System for Harsh Water Use

FR5950 Inline Water Filtration Replacement Cartridge for Harsh Water Use

Features

Filters mains water through your new or existing mixer tap

Provides quality filtered water without compromising on flow rate

Easy installation and space saving design

Finely filters to 1 micron* and polishes mains water to a premium quality for:

- Drinking
- Cooking
- Tea & coffee
- Washing fruits & vegetables

The latest carbon block filtration technology absorbs:

- Chlorine
- Bad tastes
- Odours
- Dirt
- Rust
- Cysts (e.g. giardia & cryptosporidium)**

Maintains healthy minerals and salts as well as fluoride

Specifications

Water Pressure:	100 - 860 kPa
Micron Rating:	1 micron* with limescale reduction
Capacity:	56,700 litres or 1 year whichever comes sooner (†)
Warranty:	6 years

(†) Filter cartridge life is subject to incoming water pressure, water flow and water quality.

* FR5050 filters mains water to 5 microns

** Blocked by 1 micron filtration systems only

How it Works

Water Drinking Systems

Satellite Water Filtration Systems

USA Made Filter System

Satellite Water Filtration Systems

Filters mains water through designer satellite filter tap.

FS7025 Satellite Water Filtration System with Round Goose Neck Filter Tap

FS7075 Satellite Water Filtration System with Square Goose Neck Filter Tap
