

# InvisiCab®

## CONCEALED BATHROOM CABINET

### 600 X 300MM

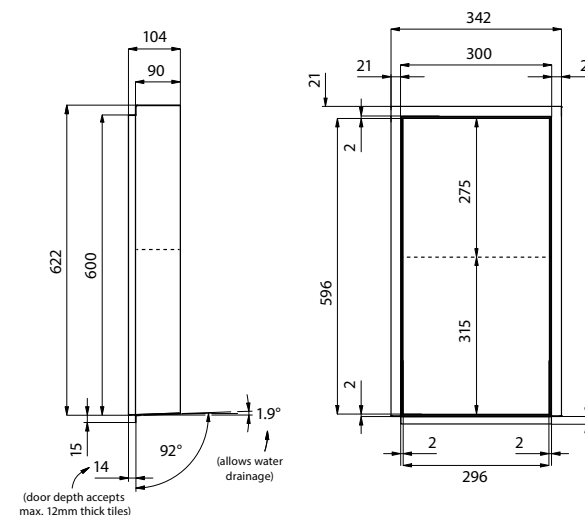

#### Features

InvisiCab aims to eliminate bathroom clutter by creating an 'invisible' storage solution. It's sleek, minimal design conceals your toiletries and maintains aesthetic appeal in your bathroom design.

- Built into the wall frame and concealed with tiles
- Polished mirror interior finish
- Push open/close mechanism
- Angled descent on bottom shelf to allow water to glide off the surface and reduce cleaning
- Suits standard 600 x 300 mm tiles to provide an 'invisible' look for your bathroom storage
- Made from 316 marine grade stainless steel

#### Installation:

InvisiCab is designed to fit within the timber stud wall at the time of construction or renovation of your bathroom. It cannot be retrofitted. Once installed inside the timber frame, the wall is then waterproofed and tiled to give a sleek, invisible look for your storage cabinet.

#### Available in

Polished  
Stainless Steel  
**IN6030**

#### Cleaning & Care

InvisiCab® features an internal polished mirror finish that is susceptible to scratches if not cared for properly. Fienza recommends using a non-abrasive, specially formulated stainless steel cleaner to ensure a smooth, streak and scratch-free finish. Do not use citrus-based cleaners or metal scourers on this product. Please note that some residue may remain once the protective film is removed from the polished inner surface.

We aim to ensure that specifications are correct at the time of publication. All measurements are shown in millimetres. Always use measurements of actual product received for final specification as the technical drawing may contain differences. Due to printing limitations, physical colour may vary from the image shown. Fienza reserves the right to make modifications without prior notice.
