

FilterWall™ F Series

*Freestanding 3 Stage, Whole House,
Filtration System*

Puretec®
PERFECTING WATER

MAINS WATER

drink. shower. live.

with FilterWall™

Transform the water in your home with a Puretec FilterWall™ F Series. Prioritise the health of your family, protect your appliances and help improve the environment. The FilterWall™ F Series will reduce the chlorine in your water by up to 98% ensuring you'll have clean, great tasting water from every tap in your house. By reducing chlorine in your water, you'll potentially notice your family drinking more water, reducing the effects of dehydration and removing the need for bottled water. Along with internal health benefits, reducing chlorine can also help to reduce eczema and psoriasis irritation, while leaving you and your family with softer hair and skin.

The FilterWall™ F Series is a 3 stage filtration system designed to be installed along your fence or the side of your house and will provide filtered water to every tap in your home. Available in two different sizes to meet the flow rate of your home, the FilterWall™ F is available in four core colours and five custom colours to match the palette of your home.

FilterWall™ F is available with two different cartridge configurations depending on the water hardness in your area.

Core Colours available from left to right: Midnight Black, Charcoal, Mineral Grey, Stone White

Custom Colours available for order from left to right: Cherry Blossom, Wisteria, Open Skies, Lime Sherbet, Sweet Apricot

Features and Benefits

*Why you should choose a Puretec FilterWall™
F Series for your home*

Built with a robust aluminium design for a long service life, backed by a 10 year warranty.

Available in four core colours and five custom colours to suit the palette of your home.

Complete a filter change in minutes.

Available in two different models to suit the flow rate of most residential applications.

Reduces sediment, chlorine and chemicals whilst maintaining calcium and magnesium to prioritise your health.

F4 & F6 models include a ScaleProtect cartridge to reduce the impact of hard water. This includes reducing the building up of scale in pipes & appliances and on glassware.

Supplied by an Australian, family owned company with 34 years of filtration experience.

drink.

Drink great tasting water from every tap in your house.
